## **DECISION**

The public body provided almost other information except personal files. The complainant stressed to provide the requisite academic records of the officers of the department. The PIO showed his reservation on the ground that the complainant would have possibly use their personal documents for mala fide purpose as according to PIO previously too, he had involved other officers in civil and criminal litigations. In view of that PIO was reluctant to share personnel documents of officials with the complainant. This Commission guided PIO that after scribing the sentence that, the documents are provided for RTI Commission only. They may provide the same to RTI Commission for onward transmission to complainant on his depositing the relevant fee beyond twenty pages. Despite all those directions the academic record of officials enlisted in his complaint are not provided. The attitude of the complainant is also not becoming of a cooperative person. In spite of submission of some information, he denied to receive it unless other information is completely provided to him RTI Commission sent an inspection team to resolve the issue between both sides, where public body committed to provide the information yet, no information could be provided in this respect.

The writ of the RTIC have been diluted by the PIO and senior officers of the public body by using delaying tactics. This is last warning to comply with the law and their own commitment and to provide the requisite information up till **07/11/2017** failing which, show cause notice will be issued to Those at the helm of affairs/PIO.
