Subject: Request for Closing Registered Complaints

Respected Assistant Registrar
KP Information Commission
Peshawar

KP-RTI COMMISSION	
Diary No:	1446
Date:	10/03/2021
Section:	07

Hope you are doing well and safe

I am thankful to your department's cooperation in providing me access to the required documents. I appreciate your team's efforts in removing barriers between public information and the applied candidates in the government offices. Your team action provides the basic information materials to the candidates and helps them to check merit selection criteria in the public institutes/departments/directorates. Now due to RTI mechanism/commission, the public departments are following the merit criteria more compared to the previous systems.

In my case, the concerned departments had not given any response to my application and after involving your commission the department provides me much of the information. Therefore, I am thankful to your team and members for such kind of actions and notices upon my request.

As a Pakistani national, I demand from the government to provide more resources to facilitate and strengthen the RTI commission.

In the end, I am requesting you to please close all my complaints (given below) against the concerned departments. Complaints No: 07558, No: 07559, No: 07560, No: 07561, No: 07562 and No: 07563

Thanks and Regards
